Divorce Exposure of Count Boni Has Turned All Classes Against Him and He Faces Wrath of Men Whose Homes He Invaded.

PARIS, Nov. 1.-Taking it for granted that the Countess de Castellane, formerly Miss Anna Gould, of New York, will obtain from her titled wife-beating husband the divorce which she now seeks and along with that divorce the custody of her children, the American colony here expects to see her departure for her own country as soon as the decree has been granted.

Count Boni de Castellane will perforce remain behind, for there is every reason to believe that he would be soundly caned by some lusty male relative of the Countess should he dare to follow her across the sea to the United States.

Indeed, the word is now passed around here that the titled wifebeater who used his rich wife's millions to pamper the various heroines of his amours may have difficulty in remaining on the earth at all.

#### THIRD TRACK ON "L" IS URGED BY BRONX PEOPLE

R. T. Board Gives Another Hearing on East Side Plan.

The Rapid Transit Commission this afternoon held a final cubile hearing on the proposition of the Interborough Company to third-track the Third Ave nue Elevated Road from Brooklyr Bridge to the Bronx. The company applied May 25, 1905, for permission to build the third track, and the commission refused to grant it.

In spite of their refusal the compan has gone ahead, and the third track has been laid to the Bowery with little gaps so that the sections can be separately called switches. Finally the board ordered a rehearing for to-day.

Protests against this were filed by The City Club, The Merchants' Association, The Municipal Art Society, The Best Side Civic Club, The Transit Reform Committee, The Bronx Civic League. The People's Institute, The Women's Health Protective Association, The Women's Municipal League, The University Settlement Society, The National Consumers' League, The Oolege Settlement, The Normal College Alumae Hopse, The Jacob A. Kils Neighborhood Settlement and Calvary House.

A number of Bronx citizens, including Homer Hildreth, former Judge Ernest Hall, Congressman Joseph A. Goulden and others, argued for the third track as a necessity.

Petitions were filed, signed by 3,500 to 4,000 property owners, tirging the commissioners to grant permission for the track. tion, The Municipal Art Society, The
